

Werner Schaufelberger

IBM Schweiz,
Bändliweg 21, Postfach, CH - 8010 Zürich
++41 58 333 6902,
w.schaufelberger @ ch.ibm.com

Professional Profile

Werner is a certified, experienced senior project manager (PMP) with IBM's Human Resource Learning organisation. He is responsible for the Swiss PM curriculum and teaches Project Management classes in EMEA. Before, he lead successfully a two year -world-wide integration platform- project at Financial Services. Additional experience include the implementation of the project office in an e-business banking project, but also an IBM internal database project. He was test and installation manager at Swiss Postal Services, responsible for the implementation of more than 250 workstations, servers and character recognition systems as well as software in three different locations throughout Switzerland. His responsibility also covered the acceptance tests conducted with the customer.

During his more than twenty years in the information technology, Mr. Schaufelberger held functions in e-business consulting, brand management, sales and marketing. He has also working experience in the design, development and project management of large software projects in the airlines industry.

Experience and Accomplishments

Werner specialised in applying new innovative solutions helping customers to improve productivity, total cost of computing and business processes. As Brand Manager, Werner was responsible for the successful launch of new solutions into the Swiss market. In close collaboration with national and international functions he introduced the first UNIX parallel processor, the first parallel sysplex implementation but also new, innovative storage solutions.

He was also responsible in the project 'customer relationship management processes' for the document management of the main process brand management. This project enabled IBM Switzerland to successfully achieve the first, company wide ISO9001 certification of a marketing firm.

When working as team leader and member of the product group steering committee, he initiated and implemented the first product group Internet home page in IBM Europe. Through this pilot installation customers gained unrestricted access to brand specialists and up-to-date product information.

Other direct work experience

Before joining IBM, Werner worked as an organisation specialist for the manufacturing industry in Switzerland as well as two years abroad.

Education and Background

Werner received his diploma in mechanical engineering from the 'Fachhochschule Winterthur'. He is a PMI certified Project Manager.

His native language is German and he is fluent in English.
